

LED Panel Light

• Specification

| Model | Power (W) | Lumens (LM) | Input Voltage | Housing | Product Size (mm) | Perforate Size (mm) | Color Temperature | Beam Angle | Life Span |
|------------|-----------|-------------|---------------|----------------|-------------------|---------------------|-------------------|------------|-----------|
| PLBB1W36Y0 | 36W | 2900LM | AC185-264V | White Die Cast | 600×600×11 | 0.96 | 6500 K | 120° | >30000 h |

• Features

- Isolated constant current drive, adopt high luminous LED light source, low attenuation, long life, stable performance;
- Integration design for heat radiation and lamp housing;
- Adopt high quality aluminium housing, good heat dissipation, and ultra-thin structure;
- Adopt side light-emitting technology, uniform soft light, no dark areas;
- High energy saving, easy control (dimming and tonning), firm and quakeproof;
- Fashionable, different effects and different pictures according to different occasions;
- Intelligent control, traditional remote control and smartphone control.

• Installation
